

Juan David Colorado Vargas

SENIOR PRODUCT DESIGNER & LEAD · AI & ENTERPRISE UX

PROFESSIONAL EXPERIENCE

Senior Lead UX/UI Designer

Symplast · APR 2026 – PRESENT · Full-time, Remote

- Lead design across a **mobile-first, HIPAA-compliant EHR and practice-management platform serving 3,500+ aesthetic practices and medical spas.**
- Design **AI-native workflows** that streamline complex clinical processes, with research and design decisions tied directly to business KPIs.
- Own the design system and cross-functional alignment across product managers, engineers, and clinical users.

Senior Product Designer & Lead + Product Owner

CodeBranch · JUN 2025 – APR 2026 · Contract, Remote (USA/LatAm)

- Led design & product strategy for **Nvidia's supply-chain intelligence platform** — an enterprise AI analytics tool on a platform managing **\$2B+ in annual transactions** — restructuring a flat interface into a task-oriented SAP Fiori dashboard and **replacing a 10-filter query flow with a conversational AI prompt: 9 of 10 participants** in internal usability testing found the new flow easier and less error-prone.
- Designed **YMA (Smartel computer-vision ecosystem) 0→1**: mobile-first patterns and a component library scaled by 2 junior designers across the product suite.
- Functional Product Owner: authored user stories, ran design QA, and governed the Atomic Design system with 5+ engineers including AI/ML specialists.

Senior Lead UX/UI Designer

Solving AI · JUN 2024 – JUN 2025 · Remote

- Built an evidence-based validation culture with **Maze prototype testing**: comprehension on first arrival at the node-based model-interconnection canvas went from **2 of 10 users to 8 of 10** after shipping onboarding, tool-selection improvements and tooltips — plus a UX-writing pass once testing showed the tooltip copy was the remaining blocker.
- Architected a scalable **Figma design system** (Variables + Auto Layout), cutting design-to-dev handoff **~30% (9→6 days)**.
- Simplified multi-step AI interactions into accessible journeys meeting **WCAG AA** for technical and non-technical users.

UX/UI Senior Designer

Ideaware · SEP 2023 – MAY 2024 · Client: Bucket.io, Remote

- Led journey mapping and redesigned a complex AI configuration into an accessible **guided funnel**; validated two directions with interactive prototypes **before engineering investment**.

UI/UX Senior Designer & Team Leader

Adaptive Tech Solutions · DEC 2022 – JUN 2023 · Remote

- Led a **design team of 3 across 3 simultaneous B2B accounts** (ToughBuilt, InvolveHub); mentored on mobile-first and responsive best practices.

PROFILE

Senior Product Designer & Lead with **10+ years designing digital product experiences** — self-serve platforms and dense B2B systems — the last **4 leading product design end-to-end, 3 of them on AI-native and enterprise workflows**, shipping the front-end code too. Now **leading design at Symplast, a HIPAA-compliant EHR for 3,500+ practices**; previously UX lead for **Nvidia's \$2B+ supply-chain AI platform**. I validate decisions with research and A/B testing.

IMPACT

9/10

Participants who found the AI flow easier · Nvidia usability testing

2 → 8

of 10 users understood the canvas on first arrival · Maze testing

~30%

Faster design-to-dev handoff (9→6 days)

CORE EXPERTISE

Product Design & UX Strategy
AI / Agentic Product Design
Design Systems & Design Ops
Healthcare UX & HIPAA
User Research & A/B Testing
SAP Fiori · WCAG Accessibility
HTML / CSS / JS

SproutLoud Media Networks

Production Designer → Team Lead → Web Developer · DEC 2015 — NOV 2022 · 7 YRS

- **Production Designer (2 yrs):** built **customizable asset templates** for a distributed-marketing platform — I produced each piece and **defined which parts the end user could change**, so brand teams could adapt them without a designer. **20+ templates** for **DISH, Nvidia, Milwaukee Tools, Andersen Windows**, plus digital prepress and inventory items.
- **Team Lead (2 yrs):** led the design team and built the **email template system and its base code**.
- **Web Developer (3 yrs):** owned web pages **end-to-end**, design through production — **HTML/CSS/JS, PHP and Jinja**, including the templating logic behind data visualisations. Worked in **Git/GitLab**.
- Ran **A/B tests** with my team to validate design decisions before rollout · **promoted 3x in 7 years**.

Graphic Designer

Creactiva · AUG 2014 — DEC 2015 · Medellín

- Advertising campaigns across print and digital for IMUSA, Corbeta, Levi's, and Cryogas.

SKILLS & TOOLS

DESIGN

Figma (Variables, Auto Layout) · Design Systems · Prototyping · Photoshop / Illustrator

TECHNICAL & AI

HTML5 / CSS3 / JS · SAP Fiori · AI/ML & Agentic Design · LLM UX · Computer-Vision UIs · Git

METHODS

Atomic Design · Prototype & A/B Testing (Maze) · Baseline Measurement · UX Research · Journey Mapping · WCAG · HIPAA · QA

LEADERSHIP

Design Ops · Mentoring · Product Ownership & User Stories · System Governance

SELECTED CLIENTS

Nvidia · DISH · Milwaukee Tools · Andersen Windows · Benjamin Moore · Generac · ToughBuilt · IMUSA · Levi's

LANGUAGES

Spanish — Native
English — C1 Advanced (EF SET 66/100)
French & Italian — Elementary

EDUCATION

Visual Designer — Interactive Systems
Fundación Universitaria Bellas Artes · 2007–2011

CERTIFICATIONS

Nvidia Corporate Training (2025) · Product Design School, Platzi (2025) · Design Systems Fundamentals, Platzi (2025) · EF SET English C1
